

SOLUTIONS for EXHAUST marking and traceability

**AUTOMOTIVE
MOTORBIKE
TRUCKS & BUS
BOATS
OFF ROAD**

EXHAUST permanent identification solutions

Technifor has developed a wide range of integrable and station solutions, dedicated to the marking of any type of exhaust system and components:

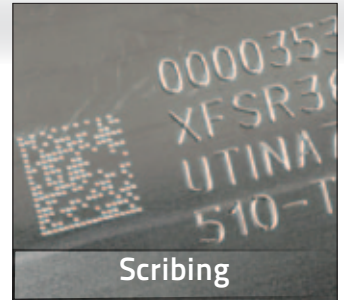

Indelible and clearly legible marks

Meet the Original Equipment (O.E.M.) marking requirements

Installed on exhaust parts production line, stuffing station, air or leak check cell and remanufacturing process, our systems mark **any type of exhaust** and **on curved surfaces**: catalytic converter, exhaust pipes, tips, silencer, header, muffler, manifold, etc.

Automated traceability guarantee

- Identify with your tradename, trace the parts and subcomponents, store data: logo, part number, Data Matrix™ code, work shift, manufacturing code, date, "E" mark...
 - Easily link data on batch number and weight of bricks to the can.
 - Manage multiple files and logos for OEM and after-market identification of common parts.
- ➔ Our markings comply with all international standards.

Scribing

Laser

Answer to your manufacturing expectations

- Provide **high quality marks** in **very fast cycle times**.
- Install **silent marking process**, even on hollow parts and meet health & safety norms.
- Choose **robust** and **compact systems** that **communicate** with your central server, PC, PLC, barcode scanner...
- **Permanent marks** provide traceability guarantee all along the part life cycle.

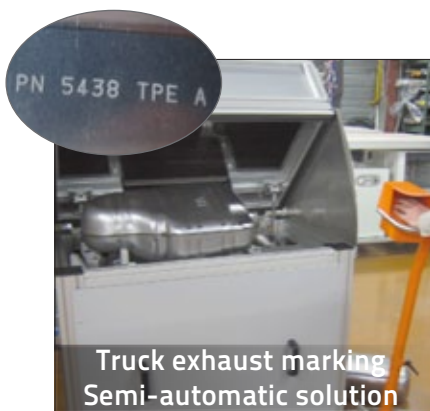

- Marking system and software
- On-site installation and training
- Local technical support
- Full manufacturer's warranty

Your benefits

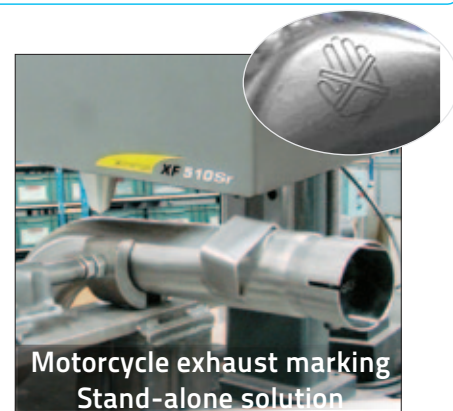

- Part traceability
- Part authenticity
- Reduced integration costs
- Reliability
- Experience and support at your disposal

Truck exhaust marking
Semi-automatic solution

Automotive exhaust marking
On-line integrated solution

Motorcycle exhaust marking
Stand-alone solution

About Technifor... Technifor is the world's first manufacturer of Direct Part Marking machines for quality control, automatic identification and permanent traceability for metallic or plastic parts.

About our services... Around the world our ISO9001 - v2008 technical teams install and maintain our micro-percussion, scribing or laser systems for OEM, system integrators and factory floor across all industries.
