

SOLUTIONS for **ENGINE** marking and traceability

**AUTOMOTIVE
MOTORBIKE & CYCLE
TRUCKS
BOATS**

ENGINE permanent identification solutions

Technifor has developed a wide range of integrable and portable solutions, dedicated to the marking of any type of engine and its components: engine block, crankshaft, camshaft, cylinder head, conrods, piston, etc.

Guarantee of a permanent marking

Bring traceability to your engines

On engine parts production line, assembly line, control cell and repair stations, our systems mark **any type of engine** and **any surfaces** (raw, machined, rough...).

Proactive solution to reduce warranty claims and recall campaign costs

Identify, store data and trace each motor through the production process and even years after the engine enters service: Data Matrix™ code, serial number, work shift code, assembly plant code, date, V.I.N., logos...

➔ Our markings comply with all international standards (AIAG, AIM-DPM, ATA, MIL...).

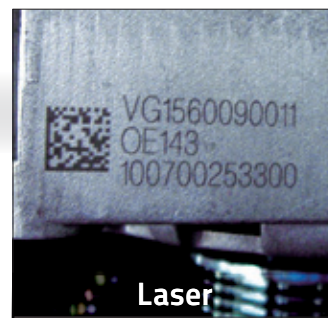

Micro-percussion

Answer to your manufacturing expectations

- Robust and efficient solutions for high production rates
- As an integrated part of your assembly process, our systems are compact, fast and they communicate with your central server, PC, PLC, barcode scanner...
- Associated to reading tools, they ensure traceability of your engines throughout the production process.

➔ Technifor solutions have been adopted by leading engine manufacturers and OEMs.

Laser

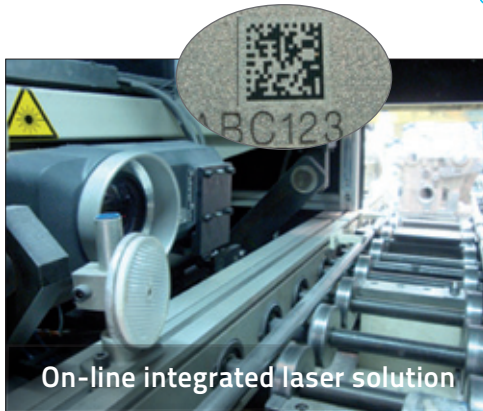

- Marking system and software
- On-site installation and training
- Local technical support
- Full manufacturer's warranty

Your benefits

- Increased quality and productivity
- Reduced integration costs
- Reliability
- Experience and support at your disposal

Portable solution on assembly line

On-line integrated laser solution

Marking and reading micro-percussion solution

About Technifor... Technifor is the world's first manufacturer of Direct Part Marking machines for quality control, automatic identification and permanent traceability for metallic or plastic parts.

About our services... Around the world our ISO9001 - v2008 technical teams install and maintain our micro-percussion, scribing or laser systems for OEM, system integrators and factory floor across all industries.
