

MARKING SOLUTIONS for PPE Personal Protective Equipment

PPE MANUFACTURER
INDUSTRIAL MAINTENANCE
LIFTING EQUIPMENT
HANDLING SYSTEMS
ACROBATIC WORKS

ENSURE REGULATORY COMPLIANCE OF PPE

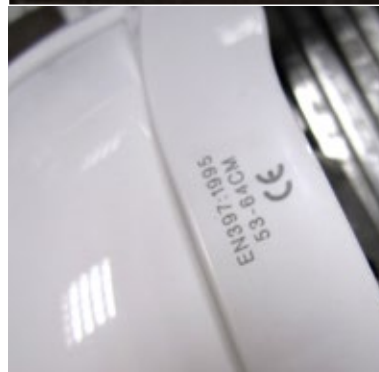

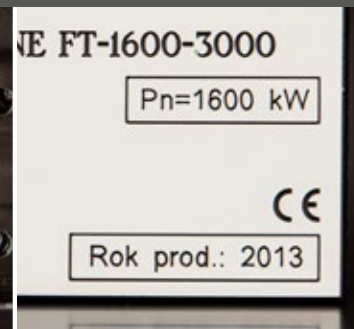

Technifor has developed a wide range of solutions to mark permanently Personal Protective Equipment (PPE) used at work, in sports & recreation or in the domestic world.

THE INDIVIDUAL MARKING OF PPE GUARANTEES THE TRACEABILITY OF EACH UNIT PRODUCED

Identify each equipment used for working at heights: fall protection systems, helmets, loops, snap hooks, lamps, links, rings, connectors, cams, pulleys, slides, ice axes, tools, ladders, slings, scaffolding, construction equipment, nameplates...

Mark any material:

steel, galvanized steel, aluminium, anodized aluminium, plastics...

LEGIBLE AND INDELIBLE MARKING ONTO EACH PPE

Show your brandname and the marks of conformity: CE mark, regulatory agency number, standard number, production date, symbol, pictogram, logo, indications for use, batch number, certification number, characteristics, PPE category, individual number, product control code...

Innovate and ensure full traceability through DataMatrix™ codes marking.

Provide clean and durable marks to ensure 100% readability over the complete PPE life cycle.

SIMPLE AND VERSATILE SOLUTIONS

All our marking machines are simple to use with a dedicated software interface for your application.

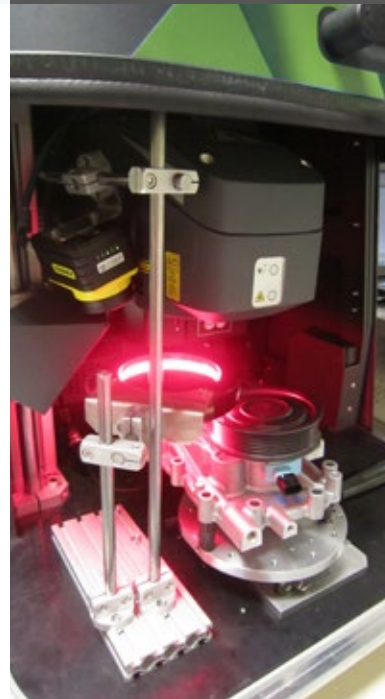

INTEGRATE SOLUTIONS

POWERFUL

TRACEABILITY

- High quality marks in very fast cycle times
- Very compact systems to integrate in your workshops and control cells
- Intelligent stations to communicate with your central server, database, PC, PLC, barcode scanner... and keep the history of the markings achieved
- Ergonomic and reliable stations to ensure a durable identification

Our precise laser and dot peen technologies do not alter the mechanical properties of the marked parts and ensure the quality and reliability of your products.

YOUR BENEFITS

- Individual traceability of each product
- Quality improvement
- Prevents counterfeiting
- Replaces tape and labels not resistant to the use of products
- Ease of installation and operation

THE SOLUTION FOR ALL YOUR MARKING OPERATIONS

The Technifor range provides the answer to all your identification needs:

- Compact and productive **benchtop machines**
- Ergonomic and autonomous **portable machines**
- **Integrable machines** on production lines

All our solutions are economical and environmentally responsible: no solvents, stickers, inks or other additives.

Low-maintenance and low-energy.

Coupled with reading systems and in constant communication with your internal networks, our solutions allow you to improve your process and meet the standards and regulatory requirements.

OUR KNOW-HOW AT YOUR SERVICE

- **Unrivalled experience** in the most challenging industrial environments and a network of subsidiaries and distributors the world over
- **Easy to install and easy to use solutions.** The documentation and interface provided, plus 19 languages, allow the user to access marking in the local language and with no need for training.
- **Technical support** in close proximity for each installation
- **A range of services:** advice, free trials, customisation of your solution, training, etc.
- **Manufacturer's warranty**
